PROFESSIONAL SUMMARY

Experienced Data Scientist with 4+ years of expertise in designing predictive machine learning algorithms, deep learning models, and NLP pipelines. Proven record of developing end-to-end computer vision and LLM applications using PyTorch and Scikit-Learn.

TECHNICAL SKILLS

Python, Machine Learning, Deep Learning, Scikit-Learn, PyTorch, TensorFlow, Pandas, NumPy, OpenCV, NLP, SQL, Docker, Git, Matplotlib

WORK EXPERIENCE

? Senior AI Engineer - Apex Innovations (2022 - Present): Designed and deployed transformer-based NLP models with PyTorch and Hugging Face. Improved inference speed by 40% with Docker and FastAPI.

? Data Scientist - Quantix Data Corp (2020 - 2022): Developed tabular predictive models with Scikit-Learn and XGBoost for customer retention analysis. Conducted A/B testing and statistical feature selection in Python.

EDUCATION

M.S. in Computer Science - Stanford University | B.S. in Applied Mathematics
